## Profile

Experienced and highly skilled in the industry of intellectual property, I am a qualified patent, trademark, and industrial design agent with over 15 years of comprehensive expertise. Throughout my career, I have adeptly managed a diverse range of intellectual property matters, including litigation, enforcement of intellectual property rights, prosecution of trademark, patent, and industrial design applications, opposition cases, drafting agreements, resolving IP-related disputes, and providing invaluable guidance on the protection and maintenance strategies for various intellectual property rights.

Furthermore, I possess substantial expertise in an array of legal domains that complement my knowledge of intellectual property. These include franchising, breach of confidential information, licensing, technology transfer agreements, computer and software agreements, domain name disputes, gaming laws, food regulation, drug regulatory matters, as well as personal data protection and privacy laws. Leveraging my extensive experience in these areas, I am adept at handling complex legal issues and providing comprehensive counsel to clients seeking guidance in these specialized fields.

Throughout my career, I have actively engaged in knowledge-sharing and professional development within the intellectual property and information technology industries. As a testament to my commitment, I have had the privilege of presenting research papers on these subjects at various esteemed local seminars and conferences.

I have been a proud member of the Group Standing Committees for the Asian Patent Attorney Association (APAA) Malaysia since 2015. Within this capacity, I have actively participated in the Designs, Copyright, and Anti-Counterfeiting Committees, where I have had the opportunity to present comprehensive reports on pertinent issues and contribute to the advancement of intellectual property practices.

In recognition of my expertise and dedication, I have also served as a valuable member of both the Malaysian Bar IP Committee and the KL Bar IT Committee. These committee roles have afforded me the platform to actively contribute to discussions and initiatives concerning intellectual property and information technology laws at the professional level. I am also currently the Vice President of the Licensing Executives Society Malaysia.

Additionally, I have had the honor of authoring the Copyright chapter for the Lexis Practical Guidance Commercial module, a respected and widely recognized resource within the legal community in Malaysia. This contribution showcases my comprehensive understanding of copyright law and serves as a testament to my ability to distill complex legal concepts into practical and accessible guidance.

Collectively, these experiences highlight my active involvement and significant contributions within the intellectual property and information technology law domains, underscoring my commitment to staying at the forefront of legal developments and effectively serving the needs of my clients.
